Art Unit: 1754

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no "description support" for the recitation of "the total amount of said cerium oxide or rare earth element oxide and one or more elements being from 15 percent by mass to 35 percent by mass. Applicants' argument, that this limitation is supported in the specification at least in Table 1 and in Paragraphs [0027] and [0029], is not convincing, since these paragraphs are silent as to the amounts of cerium oxide, rare earth element oxide, and alkaline metal and alkaline earth metal. Although Paragraph [0028] discloses that the amount of cerium oxide or rare earth metal oxide is preferably 10 to 35 percent by mass, this would not provide support for the range of "15 percent by mass to 35 percent by mass", or for the total amount of the cerium oxide or rare earth metal oxide and one or more elements being from 10 to 35 percent by mass.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1754

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
